

Research Position

Mthente Research and Consulting Services (Pty) Ltd is a research-driven consultancy based in Cape Town. We are seeking to employ a social science researcher to undertake research and socio-economic surveys.

The main responsibilities include:

- Conducting research through gathering and analysing primary and secondary data.
- Summarising complex documents and reports.
- Developing complex survey questionnaires and managing fieldwork.
- Facilitating interviews and focus group workshops.
- Coding quantitative and qualitative data.
- Writing research reports, including formulating recommendations that take into account diverse stakeholder interests.
- Writing tenders and following up on business development leads.
- Editing and reviewing colleagues' work.
- Managing research projects.

The ideal candidate must have a minimum of five years research experience and a research-based Master's degree. He/she must have experience in undertaking surveys and in SPSS. Excellent writing and communication is imperative, as well as the ability to work under pressure within a deadline environment.

Applicants must submit a covering letter and detailed CV with name, address and contact details of 3 referees to Diane Manuel at diane@mthente.co.za
